THE GREAT MINING CALAMITY.

Latest from the Scene of Disaster at Avondale, Pennsylvania—Burial of the Dead—Feeling of the Miners.

The great mining calamity at Avondale, Pa., though it has nearly ceased to be an acute sensation, still claims attention. One of the unfortunate men, Edward Owen, it is stated, has a wife and family living in Baltimore. The details of the disaster, and its extent, have, from time to time, been given in the telegraphic dispatches, and letters of correspondents published in the *Sun*. The list of victims, by all accounts, seem now to be complete, with the 108 bodies that thus far have been taken from the mine. What remains to be said is well told in a letter to the *New York Times*, dated Scranton, Pa., September 9th, from which the following is taken:

The working complement of men was one hundred and fifty-six, and it was known that eighteen men were out at the time of the fire attending the funeral of a comrade, which should have left one hundred and thirty-eight in the mine, nor can any one explain why so many bodies were not found. Despite the thorough explorations which have been made, some believe that more dead bodies will be found, and the general disbelief engenders many rumors that new heaps of bodies have been discovered.—There is no reason, however, to suppose that the exact extent of the calamity is not now known, and that one hundred and eight was the exact number of lives lost by want of an air hole in Avondale mine.

The fever of excitement through all the mining region has not diminished. This having been funeral day, the suspension of business was general, and trains to and from the scene of the calamity have been densely crowded, especially in the latter part of the day, one of thirty seven platform cars carrying over three thousand people. The attendance at the mines has been greater than on any day since Monday, and at one time not less than ten thousand were gathered about the fatal shaft.

The scenes at the various funerals were heart-rending to the extreme, when thirty-seven men were borne in one *cortege* by ten hearses, and many wagons, early in the afternoon to the Welch cemetery at Scranton; 1 500 people comprised the escort, and bells of all the churches were tolled.—One woman, on the arrival at the grave, with shrieks of lamentations, threw herself on her husband's coffin, breaking the lid, and could scarcely be removed, while others with difficulty were prevented from throwing themselves into the grave. A father was buried with a son on either side, and a stricken wife and mother stood dumb and fearless by her loss. At 7 P. M. the scenes were repeated on a lesser scale, when a second funeral of eleven bodies and afterward five took place, the enterment being made in the same cemetery; other burials also took place at Pittson and Wyoming.—Fifty-seven have been interred to-day, leaving fifty-one for sepulture to-morrow.

The mining village of Avondale has been nearly depopulated, the head of nearly every family has been taken to the tomb, and in some cases two or more members have been taken away. Monday last it was a flourishing, happy village; to-night there are only five men left in the hamlet. With rare exceptions, the victims were Welsh, and married men, and were the most excellent and experienced miners in the valley. The widows are fifty-nine and the orphans in the county are one hundred and nine. A number of the men had children living in the old country. The destitution existing is great, and requires immediate relief. Three and a half months' strike had reduced all the families to the verge of starvation, the men not being at work long enough to receive any pay. There was never a case that appealed more strongly to the charitable.—The bitter feeling in reference to the disaster has not diminished to any extent, and the affair is eagerly discussed in hotels, trains and wherever persons congregate.

There are others of these mines that have no separate airholes, there are thousands of miners who have but the one avenue of escape from threatening dangers. The miners know this, and hence the feeling they have manifested since Monday is excusable, if not justifiable. They are as a body morose, irritable, almost savage and dangerous. For the time, capital has no rights that labor is bound to respect, and the miners everywhere are absolute masters. An instance or two will show exactly how these men feel. When the heap of bodies was discovered in the gangway the first reached, with one exception, was that of Evan Hughes, the "inside boss;" it was passed by many times and was not touched until many of the bodies more remote had been picked up and carried by it.

A party of correspondents of the press from distant cities, essaying to enter the line for the purpose of gaining intelligence, were met with a torrent of abuse, and only accomplished their purpose at great personal hazard. Coroner Wadham, attempting to show a party of gentlemen the tunnel, were driven from its mouth by the miners, and himself and party assailed as "paper-collar wretches." A decent suit of clothes, or more properly a dress showing the wearer to be something else than a miner, seemed enough to provoke the wrath of these poor fellows, who have been unmanned by the horror that had come upon their comrades, and the perils surrounding themselves.

AID FOR THE AVONDALE SUFFERERS.

PHILADELPHIA, Sept. 10.—The Commercial Exchange has voted $2,000 and George W. Childs gives $1,000 for the families of the Avondale sufferers.

PLYMOUTH, Sept. 10.—The Committee appointed for the relief of the Avondale sufferers organized to night, electing E. C. Waddams, President; Henderson Gaylord, Treasurer. W. L. Webster, Secretary of the Relief Committee, was appointed to attend to and relieve the immediate wants of the needy.

The various committees throughout the country are requested to forward, without unnecessary delay, any contributions they may have on hand, or may hereaf er receive, to Henderson Gaylord, Treasurer, Plymouth, Pa.—*Baltimore sun.*

CLEBURNE'S SWORD.—The Atlanta Constitution has recently seen the sword which was presented to Gen. Cleburne by his old Arkansas regiment, and which he wore at the time of his death at Franklin. It is in the custody of Miss Gay, of Decatur, Ga., the lady who has done so much for the graves of the Confederate dead in her own State and in Tennessee. The sword is thus described by the *Constitution*: "It is a very handsome weapon, with a finely-tempered, flashing blade, in a handsomely embossed and carved scabbard, and strangely enough it bears, as the name and place of its makers, H. Marshall & Co., of Atlanta, Ga. The scabbard has at the top, on one side, a carved medallion of Mr. Davis in profile, and on the other side the harp and shamrock of Ireland twined together. On the first ring below the shamrock, midway down the scabbard, are the words:

'Maj. Gen. P. R. Cleburne.
Presented by his old Regiment,
15th Arkansas.'

"Below is a carved Major General's insignia—a wreath with three stars, the middle one the largest, and underneath the letters "C. S." representing those ill-fated but historic words—Confederate States."

DOTY'S WASHING MACHINE,

LATELY MUCH IMPROVED,

AND THE NEW

UNIVERSAL CLOTHES WRINGER.

Improved with Bowell's Patent Double Cogwheels, and the Patent Stop, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Those who have used them give testimony as follows:

"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*

"It is worth one dollar a week in any family."—*N. Y. Tribune.*

"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*

"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*

"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*

"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*

"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned washboard. By using it, one laundress is dispensed with."—*Wm. N. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machine(s) free of freight, after a month's trial, according to directions.

No husband, father or brother should permit the drudgery of washing with the hands fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.

Canvassers with exclusive right of sale make money fast selling them.

Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

TUESDAY, SEPTEMBER 14, 1869.

"SCALAWAG" LIKE.

The scorching fires of popular condemnation are beginning to reach the corrupted and vicious sensibilities of the leading "scalawag" office-holders and "Ring" men in this State. They see and begin to realize the fact that, at no distant day, the fury of an outraged people will blast and sweep them from political existence into a condition too intolerable to be borne, and into a state where every human being will avoid them as moral lepers, waiting to be swallowed up in physical death. These scalawags are sensible of their onboard-of crimes and merciless practices, perpetrated upon a helpless and down-trodden people, and that, too, in the hour of their deepest humiliation and calamity; they know that the day will come when the storm-cloud of popular wrath will burst upon and engulf them. They are, therefore, trying to prepare themselves to avert the merited fate that awaits them, and to this end we hear of a breach between them and the "carpet baggers." They cry out to the people that the "carpet baggers" did these crimes that are stirring up the wrath of the people. The "carpet baggers" ran the State debt up to forty million of dollars; that the "carpet baggers," with Littlefield at their head, bribed and corrupted the Legislature; that the "carpet baggers" overturned and destroyed the cheap and economical form of government and established in its stead strange and oppressive laws and expensive offices, and placed in office incompetent and corrupt men, and outraged and degraded the name and honor of the State. They now charge all these crimes on the "carpet baggers"; we hear the cry in all parts of the State. They will tell you these "terrible carpet baggers" must be driven out of the State and *natives* must administer the government.

Now, everybody knows, we have no sympathy for "carpet baggers," we devoutly wish them all back in the country which spewed them out upon us. They are guilty of every mentionable crime, and deserve to be driven out and detested by every honest man, without regard to "race, color, or previous condition;" but they are not alone responsible for the crimes perpetrated in this State. Nay, the "scalawags" helped them; they gladly became the willing tools and cat's paws of "carpet baggers," who have superior intelligence and large experience in crime and villany. (We use emphatic and, some may think, harsh terms, but the condition to which our State and people have been reduced, justifies them.) The scalawags consented to be bought and sold by the "carpet baggers," to do their bidding. They formed the gigantic "Railroad Ring," and the scalawags in the Legislature passed the necessary acts and appropriations, and other officials executed these acts. The "carpet baggers" "ran the machine," by and through the assistance of the native scalawags — These are just as guilty, then, of the frauds and corruptions that have been practiced as the "carpet baggers;" if possible they are worse.

The "carpet baggers" came among those who were strangers to them; to prey upon those whom they despised, to despoil them and get gain. In doing this they were not *preying upon their own people*, their neighbors and friends; their *own blood*, so to speak. But the "scalawags" do these evil crimes, and their guilt is, to that extent, greater. But for these mean, degenerate North Carolinians, the "carpet baggers" would never have had any foothold among us; they have been sustained, put and kept in position and power by degenerate, false and unnatural North Carolinians, who have shared with them the spoils of their schemes.

These men can't cheat and deceive the people now, by crying out against "carpet-baggers," for both alike constitute a political pestilence, and a moral blood that shock humanity, and they must stand alike the frowns and execrations of the virtuous, the good, the honorable of this and future generations in all civilized lands. Yes, the "carpet bagger" and the "scalawag" have been "united in life; in death they shall not be divided;" they have together perpetrated crime and outrage, and in their political, moral and social extermination, they will not be separated. History will write them down as the most infamous and execrable of the human race, and make a black mark around their names and memories. They will alike be known to posterity only by their crimes and infamy.

THE BOOK QUESTION—AGAIN.

Will any of the *friends* of the present State administration—will Superintendent Ashley, himself, tell the people how they are benefitted, when a hundred thousand sets of Arithmetics, selected by him and the Board of Education, cost *twenty-two thousand dollars more* than the same number of Arithmetics, of a higher standard of merit? Will they explain this fact to the satisfaction of the people? Will they explain how the Superintendent became the *special advocate*, if not the Agent, of A. S. Barnes & Co? Will they explain why the Board selected, at the instigation of Mr. Ashley, books of an inferior standard of merit, costing more money than others, substituting for books with which the people are familiar, others to which teachers and people are almost strangers? Let them explain these things, and show how the people are to be benefitted, financially or otherwise. Let them give one single good reason for such a course. Will they deny that Mr. Ashley is to receive, or has received, a pecuniary benefit for this adoption of the school books of A. S. Barnes & Co? Pray let us see how these things can be satisfactorily accounted for.

The * editor of the *Standard* says "the SENTINEL is evidently for *enriching* its friends, the book agents, at the expense of the people," in which, the * editor simply utters a falsehood. This * writer further says "the SENTINEL and the Democratic party of this State are *opposed* to educating the people—*opposed to free public schools*," in which assertion the * editor utters an other deliberate falsehood, for, in the very article to which this * editor is trying to reply, we took ground openly and decidedly in favor of public schools, and asked, why it was that the Legislature could vote *millions* of dollars for Railroads, many of them since declared unconstitutional, and others that will be so declared, and yet not vote one dollar for Common Schools. The * editor knew this when he penned the above lying sentence, and we defy him to produce an iota of proof of his assertion.

This * editor says the Board in its late action in regard to text books "has eminently consulted and promoted public convenience and economy." How? Let's have the figures; don't make bare, unsupported statements on a subject in which the people's money is involved to thousands of dollars, and their feelings and the interest of their children to an amount that dollars and cents can't indicate. We have given facts and figures—let this * editor refute them and not attempt to hide himself behind a subterfuge of —— assertion.

We find the following in the Bedford (Va.) *Sentinel* of the 10th inst., in relation to a gentleman well and favorably known in this community:

"A party from Liberty, consisting of four ladies, three gentlemen, and a little child, five years old, left, on the 2d of September, to make a trip to the Natural bridge, in Rockbridge. The route chosen was via Lynchburg, and the James River and Kanawa Canal.

The boat on which they took passage was densely crowded. Between forty and fifty cadets, on their return to the Virginia Military Institute, were on board—some of them, we are sorry to be informed, very drunk.

About three and half miles above Lynchburg, where the water was between twelve and fifteen feet deep, the accident which came near turning a party of pleasure to one of mourning, occurred.

Our Liberty party were all seated on the deck of the packet, enjoying the magnificent scenery, and conversing pleasantly together. A. M. McPheeters, Esq., and his brother, Mr. J. G. McPheeters, of Baltimore, were seated near each other—the little son of A. M. McPheeters being between the knees of his brother.

A drunken cadet, in passing rapidly by them, stumbled over the hatchway and fell overboard, and, in falling, seized Mr. James G. McPheeters, carrying him and little Aleck McPheeters with him.

The cadet and the child were carried by the current under the canal-boat, and came to the surface some thirty steps behind.—Wonderful to say, the child had the presence of mind and pluck to make earnest efforts to swim, moving his little hands and feet rapidly, and sustaining himself, until the attention of the young man who had caused the accident was attracted to him. He, being a splendid swimmer, and sobered somewhat by the shock of falling overboard, swam to him and saved him.

Mr. McPheeters was thought to be safe, but it was found that he was sinking, and his hands were caught by the same cadet that saved the child, as he was sinking the third time, and he was sustained by him, until persons from the bank could come to his relief.

The officers of the boat are greatly to blame for this accident. The bar of the boat supplied liquor to these young men, who were on their way to the Military Institute, and during the whole night the bar was kept open, and decent people were kept constantly annoyed by the drunken frolics and profane language of these cadets.

It is a shame that such things should happen in a civilized community. Unless the Canal Company see to it, there will be no more travel over that line by respectable people.

The young man whose bad conduct caused this accident, acted nobly after it occurred; and the family which came so near a sad bereavement by his criminal carelessness, nevertheless, feel deeply grateful to him for his heroic and successful efforts to save those whose lives he had placed in such imminent peril."

MISSISSIPPI—THE NATIONAL REPUBLICAN CONVENTION.

JACKSON, September 9.—The Conservative Republican Convention adjourned *sine die* this evening, great harmony prevailing.

The State ticket was completed with the nominations of Thomas Sinclair, colored, Secretary of State; A. W. Willis, Auditor; Joseph McElroy, Treasurer; R. H. Lowry, Attorney General; General Thos. S. Garbright, Superintendent of Education, and Leroy S. Brown, for Congress in the 5th District.

Speeches were made by Judge Dent, Judge Jefford, and Mr. Harris, colored, of Tennessee, which were followed by exciting and most enthusiastic applause.

The canvass for the National Union Republican ticket opens most promisingly.

TEXT BOOKS FOR THE PUBLIC SCHOOLS.

Mr. Editor:—In your issue of this morning an allusion is made to the action of the Board of Public Instruction in adopting the publication of Messrs. A. S. Barnes & Co., to the exclusion, *almost*, of all the other valuable text books published in this country. As reference is made to some of the works published by the House I represent, D. Appleton, & Co., of New York, I deem it to be my duty to put you in possession of the *facts*, so far as my conduct, and that of the Board towards me, is concerned. You will bear me witness, sir, that we are entire strangers to each other (for I am not acquainted with a person in your office) and that neither by conversation, communication or otherwise, did I put you in possession of any of these facts previous to this article. I beg to state this to relieve myself from the expressed suspicion that I had something to do with your article in this morning's issue of your paper.

Now to the *facts* in the case:

I offered the Board our new and beautiful series of Arithmetics for adoption. I laid them side by side with *Davies* and exhibited their superiority by actual comparison. I showed them the superiority of our series, both in definitions, analysis and illustrations of methods. I showed them that in our Mental Arithmetic we had elaborate discussions of Partnership, Bankruptcy, Insurance, Taxes, Duties, Discounts, Stocks and U. S. Securities, and Gold Currency and Greenbacks, and that there was not a *word* on these subjects in *Davies*. I also showed, and strengthened my claim by eminent Bankers of this city, that the discussion of Banking, Interest, Per centage, &c., &c., were vastly superior in our book to that of Davies, and that in our Practical Arithmetic we thoroughly discussed U. S. Securities, Bankruptcy, Accident and Life Insurance, National Taxes, Annuities, "Account of Sales" and "Cash Balance," and that all of these subjects were *omitted* by Davies. Despite these claims, *Davies'* books were adopted.

In our conversations with several members of the Board we were informed that *prices* would have a great influence in securing the adoption of the books. If they were found to be nearly equal in merit, the *lowest* priced books would most likely be adopted. To show how far prices influenced the action of the Board, let us compare *Quackenbos' Arithmetics* (rejected) with *Davies Arithmetics* (adopted):

QUACKENBOS' ARITHMETICS.—(*As offered to the Board.*)

Primary,	10 cents.
Elementary,	20 "
Mental,	20 "
Practical,	40 "

DAVIES' ARITHMETIC.—(*As adopted by the Board.*)

Primary,	14 cents.
Elements,	25 "
Intellectual,	22 "
Practical,	50 "

By adding up these columns it will be seen that the Board compel the pupils to pay *twenty-two* cents, per set, more for their Arithmetics than they would have had to pay if Quackenbos' had been adopted.—Now on one hundred thousand sets of these Arithmetics the parents and Guardians of North Carolina are compelled to pay to the publishers of Davies' Arithmetics *twenty two thousand dollars* more than they would have had to pay if Quackenbos' had been adopted. With three hundred thousand children in the schools it will be seen that the above is a small estimate.

Not only did we offer these reduced prices, but we also offered to put a *new copy* of our Arithmetic, *free of all cost or trouble*, in the hands of every pupil who possessed a copy of Davies', no matter its condition. This would save any extra expense to the children. We, also, offered to establish depositories of our books, under direction of Mr. Ashley, all over the State, at points of easy access to the children; and we also informed the Board (when in session) that if prices were the controlling motive, we would, if necessary to put our books into the schools, supply the entire schools *free of all charge, for one year*. In the face of these, Davies' Arithmetics were adopted.—We don't know why!

The disparity of prices are still more evident when we compare our Geographies (Cornell's) with those adopted, (Monteith's.) We omit Monteith's first two books, as our "*Primary*" comes really in competition with their *third* book, or "Manual." We compare, therefore, our "Primary," "Intermediate" and "Grammar school," with their "Manual," "Intermediate" and "McNally's system." The pages in each are also given. The size of pages in both is nearly the same.

CORNELL'S GEOGRAPHIES.—(*as offered to the Board.*)

New Primary (100 pages)	45 cents
" Intermediate (96 pages)	70 "
" Grammar School (122 pages)	80 "

MONTEITH'S GEOGRAPHIES.—(*As adopted by the Board.*)

Manual, No. 3, (112 pages)	55 cents
Intermediate, No. 4, (91 pages)	93 cents
McNally's system, No. 5, (110 pages)	$1.03 cents

Although Cornell has a larger number of large pages, still if we admit they are simply equal with Monteith's in "ems" of actual "composition," Cornell's Geographies, are *sixty-one cents* cheaper, for three books, than those adopted by the Board. We only offered three books, and the e three contain all the Geography necessary to be taught in our High Schools. Monteith offers *five* books, which are adopted by the Board. One set of *Monteith's* Geographies as adopted by the Board will cost $3 03, whilst Cornell's Geographies which they rejected would only cost the pupils $1,20. (We only offered the books enumerated above.) on the entire set the adopted books are $1.13 *dearer* than the rejected ones—Cornell.

These Geographies were also carefully compared with Monteiths. The plan was shown to be better. The Maps were shown, and admitted by Mr. Ashly and all the Board to be the most distinct and beautiful they ever saw; the paper was shown to be fine and toned, whilst that in Monteith was course and yellow. The binding and general appearance was also admitted to be greatly superior. Still the well and favorably known books of Cornell, with all their beauty were rejected and a set of course and imperfectly made books were adopted, and at much larger prices. Why this was done we are at a loss to know.

Let the teachers, parents, guardians and tax payers of North Carolina decide upon the merits of our claims. We present naked *facts*. We charge no misconduct on the part of any member of the Board. This is purely a business transaction. If the people of North Carolina do not reap the benefits of our liberal offers we wish them to understand that it is not our fault.

Respectfully,

GEO. C. CONNER.

P. S. I send a copy of the above to the *Standard* for publication.

WORDS OF WARNING.

Ex-Senator Hendricks, of Indiana, who has been on a visit to California, on arriving at Omaha, on his trip thither, was given a public reception by the people of that place. In his speech on that occasion, he gave to the people not only of Nebraska, but of the whole Union, these words of warning against the centralizing policy of the Radical party. They should be carefully read and pondered upon by the people, because they discuss a question in which the masses have a deep and lasting interest:

The only question is shall we stand by the policy that was established by our fathers in 1787 and 1789—that policy which distributes the powers of the government between the Federal and the State governments, or whether we shall adopt this modern doctrine of centralization. This, men of Nebraska, is a question of vital importance to you. For one, I am willing to let well enough alone. The government that our fathers made, that rests upon the doctrine, if I may express it, of popular sovereignty, in regard to domestic questions. That doctrine is the doctrine to make our institutions permanent. In it lie the security, liberty, and prosperity and happiness of the people. [Applause.] Our government rests upon the idea that all questions and subjects between the people of the United States and the people and powers of other countries shall be regulated and controlled by the Government of the United States; but that all questions and all subjects that are naturally domestic and local in their character, shall be regulated and controlled by the people of the several States. It is proposed in these latter days to surrender up the control of those questions that our fathers left with the people of the States, and to swallow them up in a centralized or general government. I say to you, men of Nebraska, that this is a question of more importance to you than to the men of Indiana.

Before you reach Nebraska you have to pass over Illinois and Iowa in going from Indiana. You are two States further removed from the center of their power than Indiana. Because you are farther removed from the center of power you are farther removed from the control of that power; you are removed from the glare, glitter, show and parade of the great centralized power.—But you are not removed from the heavy burdens that will be imposed, and they will rest upon your shoulders forever. Now, gentlemen, why not stand by the doctrine of our fathers? If Nebraska has a question that is local to Nebraska, why should the men of Indiana assume to settle it? Why not leave it to the men of Nebraska if it interests you and you alone? Why not allow you to regulate it in and according to your own pleasure?

As a man of Indiana, I would claim the right to control, as one of the citizens of that State, such a question within the limits of that State. But, fellow-citizens, it is so much better to leave to each locality to decide all local questions and to have the general government to regulate those questions that properly and legitimately belong to it.

How much are we to gain when the star of Nebraska is made to wane upon the national banner? When Nebraska has no longer the power to settle her own domestic affairs, but when all the heat and light and glory of this Union is lost in one centralized government, how much happier will you be do you believe?

Ah, gentlemen, in France, that land of beauty, of plenty, of prosperity—the land where the valleys are green with the growing harvest, and the hill sides rich with the clustering vine—in France, where men ought all to be happy and prosperous—France is but Paris. The provinces are not known. The men out in the provinces have no influence. Their power is not felt.—Paris is France, and when you establish the doctrine of a centralized power, then Nebraska is not known," and the men of Nebraska are not known, but Washington will be the United States. (Applause and cries of "that's so.")

As it was in the days of ancient Rome, when civilized Rome had grown over all the lands where Gaul was governed, but she had no power. The provinces upon the Danube were governed, but they had no power. Judea, the land of the Jews, was governed, but they had no power. They were the provinces, and the battering rams of Titus, as they shook the walls of Jerusalem, expressed this idea. The law of Rome is the law of Gaul. To bow to the will of Rome is the patriotism and loyalty of the Jew. So it will become to us.—When it shall be that Washington shall become the Rome, then Nebraska and Indiana will become the Gaul and the provinces upon the Danube and the Judea, to obey the central law, and to have no government for themselves. This is not what we want, gentlemen.

FEARFUL HURRICANE ON THE NEW ENGLAND COAST.

PROVIDENCE, R. I., September 9.—The gale last evening from 4 to 5 o'clock was the most severe known since 1815, when the city was partially submerged. Throughout this State the damage was immense, and several lives have been lost.

In this city the Hartford railroad depot was demolished, and Rase & Walker's tannery was partially blown down. The Oriental mill was unroofed, and two of the operatives were badly hurt. The Chesnut street church steeple was blown down, and nearly all the other church steeples were injured. Nearly 100 buildings were unroofed, and fruit and shade trees were destroyed.

The Bristol railroad will not be passable for several days.

Many vessels are ashore in Narragansett and Mount Hope Bays; the last of them will come off without much damage.

A small new church in Narragansett pier was entirely demolished.

Octavian Rice was killed in his barn in Warwick. Great damage is reported in Bristol, East Greenwich, Newport, Pawtucket, Fall river, and other places.

BOSTON, September 9.—The hurricane last night extended over the most of eastern Massachusetts.

At Nahant a large dwelling and stable were blown down, and the depot on the steamboat wharf was blown into the sea.

At Hull every boat at anchor in the harbor was either driven ashore or sank. The windows in the mansion were blown in, and the out buildings unroofed.

At Hingham the streets were blocked with trees, and barns and chimneys were blown down.

Agricultural Hall, in Mansfield, was leveled with the ground.

In Abingdon three church steeples fell, and a large nail and tack factory in south Abingdon was unroofed.

At Braintree the steeple of the Congregational church was carried off level with the roof.

At Newburyport and towns further east, the gale was less violent. The damage to the fruit trees, shrubbery, and corn is immense in all directions. The Coliseum organ is ruined. It has just been sold to Chicago parties for $5,000. The big drum is also ruined. Nearly every vessel in the Boston harbor dragged their anchors and many collided, sustaining damage.

At Marble Head, Frank Barrett, of Nahant, N. H., was killed.

The Sagamore House, on Nantasket beach, was swept from its foundation. The inmates escaped injury, having just left the house to find safer quarters. The gale along the eastern coast was the most terrific experienced for years.

PORTLAND, September 9.—The schooner Helen Eliza, of Gloucester, went ashore on the south end of Peak's island last night, and went to pieces instantly. Eleven persons were drowned, and but one person was saved. Two bodies have been recovered. Very little will be saved from the wreck.

An unknown schooner is ashore on Hog island, but she is light, and will probably come off with the next tide.

Five vessels are ashore on Saco beach; the schooners Mercy, Hope, Albion, and three unknown. Fifteen are said to be ashore between Cape Porpoise and Portland.

The marine hospital had one third of the roof blown off. The fog bell at Portland headlight was blown over the bank into the sea. The gale raged fearfully on the coast. Every description of vessels dragged their anchors and drifted about helplessly.

For the Sentinel.

My attention has been called to an article which appeared in the *Standard* of the 7th inst., over the signature of one Friday Jones, purporting to be an address to "My Brethren of the Baptist Church."

That such advice should emanate from such a vile sycophant as he, is truly laughable, and I would not condescend to notice it, but for the active part which I had taken in the Excursion to Morehead City. Had the advice come from any one else I should have looked upon it as well and good, but when *he* takes it upon himself to advise persons who have more sense in reality, than he ever had in imagination, (for upon such foundations is his small stock based) I could not refrain from replying. So long as he and his two sons can peddle on *chickens* and other produce, and charge two prices, I do not blame him to advise persons to stay at home. He had better stay there himself and study less about the Almighty Dollar. His business at the Capitol should occupy his entire thoughts, and nothing else. As for his religion I say in the name of the People, "*May God help him.*"

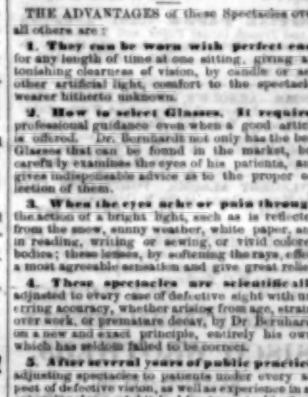
OFFICE NO. 15, FIRST FLOOR.

Entered according to act of Congress in the year 1867, by MORRIS BERNHARDT, in the Clerk's Office of the District Court of the United States, for the Middle District of Alabama.

MORRIS BERNHARDT,

OPTICIAN,
OF BERLIN, PRUSSIA.

Recently of New York, offers those who are suffering from weak and defective sight, his



AND

AUSTRALIAN
CRYSTAL
TRADE MARK.

GLASS SPECTACLES,

Superior to any other in use, constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,
SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice**, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.
CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.
WM. G. HILL, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.
Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.
W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.
R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.
DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.
J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.
JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

SIR: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,
Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.
THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.
W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:
HORATIO SEYMOUR, Governor of New York.

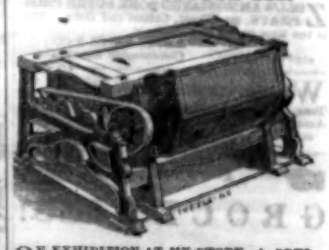
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or bags; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

New Ads.—Fine mule for sale by Upchurch and Dodd.

Dunn's self-adjusting cotton tie for sale by McIlwaine & Co., Petersburg, Va.

A number of interesting Books, by J. H. Eaniss, Agent; noticed elsewhere.

Before the Mayor.—Dick Brown was up before the Mayor on Monday, on a warrant issued last Saturday, to answer for unhusbandly treatment of his wife. The facts were made so apparent that His Honor bound him over to answer at the next term of Wake Superior Court.

New Goods.—We see boxes in great numbers arriving to some of our merchants, and, during the week, most of those who are "alive" will be getting in their Fall and Winter stock, and sending out cards of invitation to their customers, through the *Sentinel*, to come in and inspect the new and pretty things selected for their gratification.

We have received a card from Treasurer Jenkins in regard to the Chatham Railroad Bonds, alluded to by us in our Saturday's issue. It came too late for insertion to day but will appear to morrow.

Prof. Kerr.—We are requested by a Harnett County farmer to procure from Prof. Kerr, State Geologist, if he will furnish it, a paper on the best method of using shell lime as a fertilizer, and also, the advantages, if any, of combining salt and lime together, and to publish the same for the information of himself and others who have it in contemplation to try lime on their lands this Fall.

We do not know where the State Geologist is at this time, and, as it is a subject requiring immediate attention, if attended to at all for Fall seeding, we insert this paragraph, hoping it may meet his eye, and, if compatible with his engagements, meet with an early response.

We would like, also, to have the experience of farmers who have tried lime on their lands, in regard to its value, application, &c., for publication.

The Revival.—The religious revival that has been going on for two or three weeks, in the Churches of our city, is still progressing with unabated interest. Meetings were held every evening last week in the Baptist, Methodist and Presbyterian Churches. At the Baptist Church, on Sunday evening, three members were received into the Church by baptism. On Sunday morning, at the Methodist Church, six accessions were made to the membership. At this Church thirty one have made a profession of religion, and twenty-five have attached themselves to the Church.

The meetings will be continued during the present week, and in the name of the Pastors of the different Churches, we would state, that our citizens generally are invited to attend the meetings.

Affray.—Davy Lane and Nelson Nichols were up before Justice Adams, yesterday, for an affray, in which a stick and a razor came into play. After hearing the evidence, the Magistrate bound both over to Court, in the sum of $200 each.

That Fine Tobacco.—We noticed the sale in Danville, some days since, of a lot of fine tobacco, sold by S. H. Holland & Co., for Mr. John Peed, of Granville. A friend writing from Granville, informs us that the tobacco alluded to was raised and cured by Mr. James B. Hobgood, and sold at his barn to Mr. Peed at $30.00 per hundred, all round. This is the second crop raised by Mr. Hobgood and sold at the same price.—Our correspondent says Mr. Hobgood has two barns, new crop, coal cured and ready for market, and of much finer quality than either of the former crops.

State Agricultural Society.—The Executive Committee of the North Carolina Agricultural Society, respectfully request the various papers of the State to announce, that special premiums will be given for products, machines or other articles, not mentioned in the published list, which are deemed worthy. They invite the people everywhere to bring whatever they may wish to exhibit, the desire of the Committee being to encourage every material interest of the State.

New Post Master.—Wilson Carey, the man who keeps "de archives of grabity," has been appointed Post Master at Yanceyville, through the instrumentality, it is supposed, of Mr. Gash.

The Lottery.—A correspondent of Caswell County asks us, "What has b come of the Lottery? Where is the promised explanation of the failure to draw on the 28th of August?"

In answer to our correspondent, we would state, that the scheme of the drawing has been remodeled, and the amount of prizes reduced from $146,000 to $75,000, and the drawing advertised to come off, certainly on the 19th of November next. Mr. Hester resigned the Presidency of the Company, and Hon. Sion H. Rogers has been elected to that position. Further than this, we cannot answer the inquiries of our correspondent.

Guilford.—Your communication is received, written on both sides the sheet, which makes it very inconvenient to put in type. We will attend to it as soon as possible.

State Fair.—We return our thanks to the Executive Committee for tickets admitting us as members of the State Agricultural Society.

CORNELL'S NEW GEOGRAPHIES.

A Primary Geography; or, Part First of a Systematic Series of Geographies: By S. S. Cornell, small 4to, 100 pp, New York—D. Appleton & Co.

An Intermediate Geography, Embracing a Summary of Physical Geography, New Maps, Pictorial Illustrations, &c., &c., 96 pp.

A Grammar School Geography; a full treatise on Physical Geography, Magnificent Maps, Map Drawing, Duplicate Maps of the United States and Europe, &c., &c. 122 pp.

This beautiful, and, so far as we are able to judge from appearances, perfect series of Geographies, has been laid on our table by the Agent of the Publishers, Mr. Geo. C. Connor, of Atlanta, Ga. We have looked through them with pleasure, and really wish that such *beautiful* books were in the hands of every child in North Carolina.

In all the maps we have examined we have never seen the equal of these in outline, lettering and coloring. They are gems of art. The illustrations, typography and binding are in the same category. They are objects of honorable pride to the Publishers.

We are pleased with the Map Drawing feature, and with the prominence given to Physical Geography; but still more are we taken with the duplicate Maps; one gives the main features and *principal* places, whilst its duplicate gives the State in enlarged size, and every town, village, river, &c., in it. These Maps will make *Cornell* win its way into every school, taught by teachers who attach importance to these features. We most cordially commend the series to every teacher in the State of North Carolina.

BOOK NOTICES.

Cast up by the Sea—A New Book for Boys.—By Sir Samuel W. Baker, author of "The Albert N'Yanza Great Basin of the Nile," etc., 1 vol. 12 mo. Price $1.00. Few books have attained such popularity as this. It has been hailed by the boys everywhere with joyous eagerness and elicits unparalleled enthusiasm among them. As entertaining as "Robinson Crusoe," it is more instructive, and spreads an intellectual feast for youths, of which grown folks partake with almost equal avidity.

Felix Holt; The Radical. A Novel. By George Eliot, Author of Adam Bede, The Mill on the Floss, etc. Price 75 cents.

This story, like "Romola" and its predecessors from the same hand, belong to the enduring literature of our country, durable not for the fashionableness of its pattern, but for the texture of its stuff.

The Lovers' Dictionary.—A Poetical Treasury of Lovers' Thoughts, Fancies, Addresses, and Dilemmas, Indexed with nearly Ten Thousand References as a Dictionary of Compliments and Guide to the Study of the Tender Science. Post 8vo, Cloth, $3.50:

A very happily chosen and numerous collection of love poems from all authors, but so arranged that lovers can make it a lexicon of compliments if they wish. In these 700 pages what lover can not find the where with to express his passion? Who shall go away unsatisfied saying there is not enough?

The volume has evidently been edited with great care, the comprehensive index alone implying a great deal of intelligent labor.

All of the above works can be had at the N. C. Book Store, Jas. H. Ennis, Agent, Raleigh, N. C.

An Indispensable Book.—Messrs. Nichols & Gorman, of this city, have laid us under obligation for a copy of their new "Hand Book," for county officers; an excellent, indeed, indispensable digest and guide for Justices of the Peace, Superior Court Clerks, County Commissioners, Township officers, Sheriffs, Coroners and other county officials. It contains approved forms and precedents in regard to the duties and powers of officers under the new Constitution, and laws passed by the General Assembly of 1868-'69.

This is the second edition of this work, by the publishers, the announcement of which was given several days since, in an advertisement in the Sentinel, in which the prices of the different styles of binding may be seen.

A Valuable Book.—The September number of the Carolina Farmer is received. It fully sustains its reputation as one of the best agricultural journals of the country. The next (October) number will close the monthly series; and on the 1st of November it will appear as an eight-page Agricultural and Family Weekly. In its new form it will give twice as much agricultural matter as at present, besides a great variety of miscellaneous and general reading. The price will remain at $2 00 per year, in advance. Address Wm. H. Bernard, Wilmington, N. C.

Goldsborough Messenger.—It will be remembered that the office of this brisk little Daily was among the suffers in the late fire in Goldsboro'. Yesterday it made its reappearance among our exchanges, shorn somewhat of its fair proportions, being issued only on a half sheet, owing to the confusion of the office fixtures produced by the fire. We welcome it back to life and activity and hope it may have "better luck next time."

The fencing around the site of the new postoffice building at New York, opposite the Astor House, was leased a few days since for two years for advertising purposes. The bids, over two hundred in number, ranged from $200 to $15,00. The successful competitor was regarded as having paid a price entirely too high to save him from loss. That this idea was a mistaken one is evidenced by the fact that on Tuesday last Mr. Bonner paid $500 for the privilege of its exclusive use a single day.

It is given out that Prince Arthur, "moved by the expression of friendship and good will from the American newspapers," has resolved to pay a visit to New York in the course of the winter.

The lightning express trains on the Erie road are making, it is said, forty five, and in some instances, sixty miles an hour.—The travellers don't like it.

The Hebrews in Cincinnati own $10,000,000 of property.

Monday Evening Dispatches.

FROM WASHINGTON.

Washington, Sept. 13.—Kentucky soldiers are here in full force to oust bomb-proofs. They will have hard work and make slow progress in getting possession of the Kentucky federal offices.

Dispatches from all parts of the country report magnificent Humbolt festivities.

High officials think that the Virginia Legislature can elect United States Senators previous to the State's regular admission into the Union.

OHIO.

Carthage, Sept. 13.—An elevated platform, at the race course, gave away to-day; seriously injuring seventeen men and women.

VIRGINIA.

Richmond, Sept. 13.—Charles Whittlesey, the defeated Wells candidate for Congress in the Alexandria District, has been appointed by Gen. Canby, Attorney General, vice Bowden, resigned.

FOREIGN.

Brussels, Sept. 13.—Belgium declines joining Bavaria in support of Prince Hohenlohe's policy respecting the Ecumenical Council. The Government has determined to send no official delegate to the Council.

Monday Midnight Dispatches.

WASHINGTON.

Washington, Sept. 13.—Revenue, to-day, $500,000.

The *Express* says that late advices say, that half the cotton crop of Florida and Georgia has been destroyed by caterpillars.

The blank space in the new tobacco stamps must be filled with the name of the manufacturer.

Hereafter Deibno will hear arguments, Wednesday and Saturday; during those days Deputy Douglass will attend to routine duties.

The trial of Schureman implicated with Turner, the negro ex-Postmaster, of Macon, Ga., in counterfeit money matters, commenced to-day.

Saturday's report of Revenue seizures was quite heavy; nineteen only in Kentucky of the southern States.

It is understood here that Conservative Republicans of Mississippi, in order to interfere as little as possible with cotton gathering, will not commence an active canvass until after the first of November.

The State Department is officially advised that New York has ratified the 15th amendment.

Private letters from Cork or Queenstown state that Spain will sell Cuba; Serrano is willing but the Cabinet is off sh.

Gen Huff's report of the execution of two Americans, one a telegraph operator named Woyeth, characterizes them as massacres. It appears from the report that such is the disturbed condition of the Island, that the administration of justice in many instances is impossible.

The Central Cuban Junta has forwarded $30,000 to the bonds of the Republic of Cuba to the Rawlins fund. These bonds sell in the market for 25 cents in the dollar. Subscriptions of $1 from each Cuban has been started for the same fund.

The present activity of the Navy has no warlike meaning; vessels were becoming damaged by idleness, and it is proposed to use sailing vessels for ordinary duty, instead of steamers, as a matter of economy.

THE UTLEY
COTTON PRESS.
A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappreciated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to the merits over all others. With the brass, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm, which gives the Bloom of Youth and a refined sparkling Beauty to the Complexion, pleasing powerful and natural.

No lady need complain of a red, tanned, freckled or rustic Complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon. aug 28. 1m

And $5,000 ready to pay a loss of No. 34,161, as soon as the party authorized to receive the money appears.
The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.
DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.
Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,54
Equitable,	17,44
North America,	21,16
Brooklyn,	21,99
Universal,	27,24
John Hancock,	18,27
The National,	63,48
The Ætna,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.
Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.
It insured more lives in the City of New York in 1868, than any other Company, and it issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.
See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 529 policies, received an income of seventy-eight thousand dollars, and possessed most assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

THE MOUND BUILDERS.

G. F. Adye writes from Newtonville, Spencer county, Indiana, to the Cincinnati *Gazette* as follows:

This county is rich in such American antiquities, Indian arrows, wedges, stone hatches, pessels and mounds are plenty.—One of the most prominent mounds can be seen on Corn Island, near Troy, by the travelling public. It is half a mile above the coal landing; has a large two-story frame house on it. A cellar and a cistern have been dug in it. The mound covers three acres, and is about twenty feet above the general level. About twelve inches below the surface is a layer of flat stone, under which human bones of large size are found in abundance. Skulls larger than the whole head of a man are found. The lower jawbone can be placed over the jaw and flesh of a large man's face. The whole skeleton is very large. An excavation near by shows where the dirt was obtained. Inclosed I send you two teeth, taken from the upper and lower jaw of a human head, which was obtained twenty-one feet below the surface. They are large and sharp, and show the carniverous habits of a larger race of men than the present. Half a mile from this mound is another of less proportions, but every way similar. Also twenty or thirty other small mounds are not far off, all containing bones, &c. In one was obtained a wedge of pure copper, that weighed over a pound. The mounds are full of bones from top to bottom, showing that large numbers were buried there.

In this connection I will speak of a very large mound near Petersburg, Pike county, Indiana. It covers about four acres at the base; is one acre on top, and about seventy feet high. Here also an excavation shows where the dirt was obtained. Human bones of immense size, hatchets, arrows, &c., here also mark the habits of a warlike race of giants.

The timber and soil of these mounds and excavations are the same size and depth and general appearance as the surrounding country, showing great antiquity of the mounds and builders.

ADVICE TO NERVOUS PEOPLE.

Irritable nerves are best soothe, not by any indulgence, but by turning the mind resolutely in another direction. Many pass through life without one close grasp of their position or duties, or even without studying the best means of attaining their own desired ends. Such are more likely than any other to become victims of tyrannical nerves and are often grossly unreasonable, from the habit of not using their judgment. Above all, real, earnest labor will put to flight a vast deal of nervous trouble. Few who are pursuing a life work of importance are greatly afflicted with nervousness, and these few may trace it to the lack of wholesome living and fresh air. A due regard to the laws of health, an earnest purpose in life, and regular employment, are the best preventives for the evils of over sensitive nerves. Training and self respect will induce us to suppress tears and to conquer weakness. Acts of resolution will teach courage, and a systematic infusion of vigor and self-discipline will render the whole nature superior to the indulgence of a tyrannical and enfeebling nervous system.

CAR SCENE.—"I say, conductor, do you know who that good looking lady is there with a book?"

"Yes, I've seen her a few minutes."

"By Jove! she's splendid."

"Yes, I think she is."

"Where does she live?"

"In Chicago, I believe."

"I'd like to occupy the seat with her."

"Why don't you ask her."

"I do not know but it would be out of order."

"It would not be if she was willing to have you occupy it. Of course you claim to be a gentleman."

"Oh! certainly. If you are acquainted with her give me an introduction; that is, if you have no objections."

"Certainly not."

"How far is she going, do you know?"

"Rochester, I believe."

"Give me an introduction, by all means."

Fixing his hair, moustache and whiskers in becoming style, he followed the conductor, who, on reaching the seat where the lady sat, said with a peculiar twinkle in his eye:

"My wife, Mr. ——, of New York, who assures me he will die before reaching Detroit if he does not form your acquaintance."

The gentleman stammered, stuttered, grew red in the face, faltered out some excuse, and returned to his seat, leaving the lady in company with her husband to enjoy the joke.

PHOTOGRAPHIC SEALS.—An interesting discovery in the art of photography is mentioned by the Philadelphia *Ledger*. It is a process invented by an artist of Fresberg, by which seals and stamps may be made with portraits instead of names or initials, and is thus described: A thin layer of gelatin, sensitized with bi chromate of potash, is exposed to the action of light under a photograph positive, by which the parts acted on are rendered indissoluble in water. The gelatin film is immersed in water, and the parts not acted upon by light swell up, into a picture in relief of which a plaster cast can be taken. A galvanic copy being taken of the cast, we have a metallic facsimile of the photograph, which can be employed as a seal. This process suggests a method of obtaining perfect likenesses of persons in metallic checks, for the use of the printer, and also an admirable way of illustrating scientific books.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians and persons who HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL,

BEING POSITIVELY THE

Most Powerful Vegetable Alterative

YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion, and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white co t. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that efficiently stimulates and corrects the Aepatic secretions and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts freely upon the Liver instead of CAUSING PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THESE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry teasing cough; unsteady appetite; sometimes sour stomach, with a rising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, GENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is so important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of memory; Delusion of sparks; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
